

Campaign Performance Summary – 2024/2025

Overview

This report summarizes marketing campaign results across all titles and channels for fiscal year 2024-2025. Total marketing investment was \$12.4M generating 285M impressions and 8.9M conversions.

Social Media and Influencer campaigns consistently outperformed TV Ads in cost-per-conversion metrics.

Top Performing Campaigns

Hollow Earth – Social Media campaign achieved 510,000 conversions on \$320K spend (ROAS: 4.8x). The Influencer campaign delivered 124,000 conversions with a 540,000 click volume.

Stellar Run – All four channels (Social Media, TV, Search, Influencer) delivered above-benchmark results. The Influencer campaign achieved an 88,000 conversion rate at the lowest cost-per-click.

Fire & Frost – Social Media drove 470,000 clicks and 106,000 conversions. The title's strong organic buzz amplified paid campaign results.

Underperforming Campaigns

Comedy titles showed consistently weak campaign results. The Laughing House generated only 12,000 conversions on \$80K Social Media spend. Laugh Track and The Comedy Club similarly underdelivered.

TV Ads for comedy content had especially poor performance, with high CPM but low conversion rates, suggesting comedy audiences are less responsive to traditional broadcast advertising.

Channel Analysis

Social Media: Best overall channel, averaging 62,000 conversions per campaign at lowest cost.

Influencer: Second best channel, particularly effective for Action and Sci-Fi titles. Average 97,000 conversions per campaign.

TV Ads: Highest reach but lowest conversion efficiency. Best suited for broad awareness campaigns for blockbuster releases.

Search Ads: Effective for targeted audiences already interested in specific genres. Best ROI for Drama titles.

Recommendations

Shift 15-20% of TV Ad budget to Influencer campaigns for 2025-2026.

Develop a comedy-specific campaign strategy with audience testing before major launches.

Increase Search Ad budgets for Drama titles where intent-based targeting is most effective.
